About Dave Hogan Photography. i

Front Cover Photo: Grist mill in Babcock State Park near Beckley, WV.

Page i: Photo of me at work, taken by my wife. I use two desktop computers in my work. PROfotography logo on a blue background.

Page 1-5: A variety of iris blooms in a Campbell County, Virginia garden. So many colors and sizes to see. Each year these blooms attract attention around the area. Many were collected around the area. A few were purchased to provide diversity.

Page 6-9: A car club trip to Daniels, West Virginia had a road trip and a car show. Near Beckley, WV there is an old grist mill. The mill provided several beautiful shots. Also near Beckley is a winery. A visit provides excellent wines to taste and buy. And when an afternoon thunderstorm arrives, the winery is a safe place to relax until travel is safe.

Page 10-11: Cherry blossoms at Valley View Retirement Community in Lynchburg, Virginia. They last only 2-3 days so timing is important. The different views provide a photographer many ways to take a variety of interesting photographs.

Page 12: The plaid interior of a 1970s sports car. Remember the 1970s? Interior designs were available in many different styles and colors. Did you have or drive one of the plain jane cars or something more stylish?

Inside Smith Mountain Lake Coffee House. I photograph few people unless it is a candid photograph. This time Mattie posed for me. Her smile and welcoming personality made my cookie and coffee more enjoyable.

Page 13: These ten year old photographs were taken on the Potomac River near Heathsville, VA in 2009. Here the river is eight miles wide. Houses here are mainly vacation or second homes. Some are large, others small, but each provides an interesting experience on the river.

Two empty chairs sitting on the riverbank make a relaxing scene. Don't they look inviting? There the river is eight miles wide, so if you go for a swim, watch out for those cargo ships.

Page 14: Again from 2009, two winter scenes to help cool your thoughts in summer. Yes, snow can be beautiful, but its dangers outweigh its beauty. Whether going for a walk in the woods or simply enjoying nature's artistry, enjoy the sights and avoid winter disasters.

Back Cover: Is it a sunrise or sunset? It depends on your state of mind, positive or negative.

About Dave Hogan, PROfotography

The camera I use for my photography is a Canon 70D. It is also used for some video. My backup camera is a Canon T7i. A Garmin VIRB action camera is my in-car choice. Garmin has software to edit the action camera video which adds car speed, RPM, etc. to the edited video. Adobe Creative Cloud software is used to process photos and video taken with the Canon DSLR cameras. When I am not at the computers, I edit a car club newsletter and manage their Facebook page. Also, I am the volunteer photographer for the [Lynchburg Museum System](#) and have several functions with the [Blue Ridge Region, Porsche Club of America](#). My goal in retirement is to have fun and stay busy.
