# Inside This Issue

**This issue contains photographs of unusual things. There are no formal or posed photographs, just some things interesting to me which you do not usually see in a photography magazine. I dislike doing formal photography because life is not staged, it just happens. And when it happens, especially if it is embarrassing, I like to have my camera ready. Tell me what you think. Creative ideas can come from outside my mind. What do you want to see?**

## **About Dave Hogan Photography. . . . . i**

Front Cover Photo: Bees work the hive around the queen(green dot).

Page i: Photo of me at work, taken by my wife. I use two desktop computers in my work.  
PROfotography logo on a blue background.

## About Dave Hogan, PROfotography

The camera I use for my photography is a Canon 70D. It is also used for some video. My backup camera is a Canon T7i. A Garmin VIRB action camera is my in-car choice. Garmin has software to edit the action camera video which adds car speed, RPM, etc. to the edited video. Adobe Creative Cloud software is used to process photos and video taken with the Canon DSLR cameras. When I am not at the computers, I edit a car club newsletter and manage their Facebook page. Also, I am the volunteer photographer for the [Lynchburg Museum System](#) and have several functions with the [Blue Ridge Region, Porsche Club of America](#). My goal in retirement is to have fun and stay busy.
